Over 1,000 standard PFA products on the market today.

CUSTOM-MOLDED AND SPECIALTY PRODUCTS

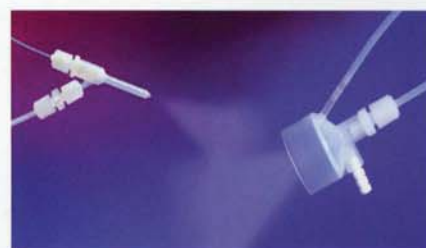

Our in-house tooling and engineering expertise allows for the molding of custom and specialty products designed to meet today's most stringent performance requirements.

We welcome special requests and will partner with you to provide a viable solution for your specific application.

PROPRIETARY PRODUCTS - SAMPLE INTRODUCTION SYSTEMS

Savillex offers its own PFA sample introduction products for ICP/ICP-MS applications. All components are of precision-molded PFA construction and are chemically resistant to all common matrices. They are ideal for environmental, geological, biological and semiconductor applications and are compatible with most ICP equipment.

The Savillex line of sample introduction systems provides the features and benefits of PFA components without the exorbitant cost. Be sure to visit our web site (www.savillex.com) often to see new additions to our proprietary product line offering.
