### FEATURES

- > Cork fitted with brass discs and hook
- > Lead weighted
- > False bottom
- > Heavy brass wire handle

### METHODS

ASTM D4057, ASTM D4306, BS 3195 Part 1, IP 51 (obs), ISO 3170

### ADDITIONAL INFORMATION

Note: Capacities listed are approximate.

### SPECIFICATIONS

|                        |                 |
|------------------------|-----------------|
| Capacity               | 500 ml          |
| Material               | Tinned steel    |
| Diameter               | 6.4 cm          |
| Length (Inc. handle)   | 31 cm           |
| Internal neck diameter | 3.8 cm          |
| Weight                 | 1.25 kg         |
| CCCN Code:             | Tariff 90279050 |

### DETAILS OF METHODS

|                |                                                                                                 |
|----------------|-------------------------------------------------------------------------------------------------|
| IP 51 (obs)    | No Information Found                                                                            |
| ASTM D4057     | Standard practice for manual sampling of petroleum and petroleum products                       |
| ASTM D4306     | Standard Practice for Aviation Fuel Sample Containers for Tests Affected by Trace Contamination |
| BS 3195 Part 1 | Manual sampling of liquid hydrocarbons                                                          |
| ISO 3170       | Petroleum liquids - Manual sampling                                                             |
